Southern California Edison
SCE EE Business Plan A.17-01-013

DATA REQUEST SET A.17-01-013-ORA-SCE-003

To: ORA
Prepared by: Samantha Nicely
Title: Senior Project Manager
Dated: 06/09/2017

Question 15:

Describe the method used to determine the amount of account representative costs charged to energy efficiency balancing accounts for the years 2014-2017.

Response to Question 15:

As described in SCE's June 12, 2017 Response to the Request for Supplemental Budget and Related Information, account representative costs are charged to the EE balance account using a labor time analysis which are applied to employee labor rates (which include paid time off, but are not loaded with benefits). See SCE's Responses to the Request for Supplemental Budget and Related Information, A.17-01-013, June 12, 2017, page 7, section E for more information.
