Margaret,

I wanted to check in as Kevin mentioned you'd be sending a new version with your comments/edits and I have not seen it yet. We want to make sure your edits are included before we docket the letter.

Thanks,
Erin

Kevin

I am not sure what happened, but some of my edits got lost that made sure that Cape Light Compact could be included (ie. not just utilities). I have made those edits as well provided the customer counts for just Cape Light Compact and added our name. I will send logo and signature to Erin in just a moment.

Thanks
Margaret

Subject: RE: EXT || DOE Regulatory Reform RFI DRAFT Comment letter

Hi Erin- Please see attached for our final MA letter. Note that it includes the following minor changes from the version you distributed in the preceding message:

- Removed/edited sections related to ASRAC participation (all signing parties were either never part of this committee or are no longer members)
- A few additional syntax edits, word replacements, and formatting changes that do not change the content of the letter

Each signing party will now provide you with their signatory information and logos individually (as well as number of customers served). Let me know if you have any further questions or if I can help coordinate further.

-Kevin

All,

On behalf of Mary Anderson, I have attached for the updated version of the comment letter (in both tracked changes and clean). We highlighted a few areas of text regarding the number of customers the Energy Coalition serves, the logos, whether the Energy Coalition participates in ASRAC, and the signatories. Please let me know how you'd like to proceed in these areas and I will update the final version.

Let me know if you any further comments.

Thank you,
Erin

All- Please see attached for my comments which build off the previously sent versions. As a reminder, Mary has set a deadline of tomorrow COB for our comments on this.

I made the following edits to the document:

- Rearranged narrative to elevate one important section (EPCA safeguards) that, IMO, was previously a bit buried
 - In doing so, added section titles and supporting language to improve readability/flow
- Underscored key points in question response section
- Took care of a few grammatical/consistency/typo fixes (but thank you to Mary (Downes) and Margaret for taking care of most of these already).

**Subject:** RE: EXT || DOE Regulatory Reform RFI DRAFT Comment letter

This is pretty dense reading for sure. There is one thing that caught my attention and that was the comment that there should be some focus on water efficiency due to the severe droughts we have

been experiencing. There is another angle that could be promoted here. Electric generation consumes tremendous amounts of energy in the country so it would seem we could quantify water savings being achieved already even from those appliances that don't have water consumption directly.
